How to post a message on the Best Practice Network Message Board

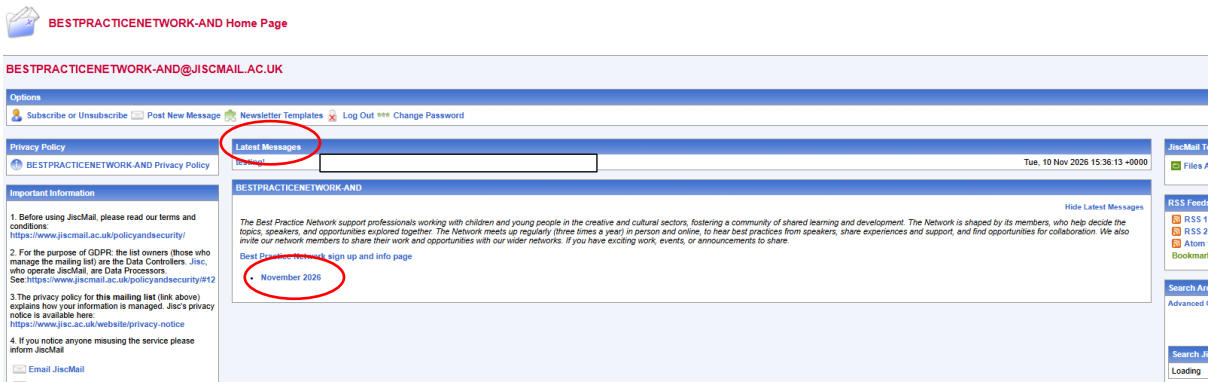

Step 1: On your BESTPRACTICENETWORK-AND Home Page press Post New Message.

Step 2: Enter a subject and compose your message. Click Send Message to send it to the mailing list subscribers. Please note that messages are not delivered immediately, as they are automatically processed by JiscMail before being distributed to the group.

Step 3: You can find archive of your message in Latest Messages on your Home Page. As well as in the archives, if you find the month and year you posted it.

The Best Practice Network support professionals working with children and young people in the creative and cultural sectors, fostering a community of shared learning and development. The Network is shaped by its members, who help decide the topics, speakers, and opportunities explored together. The Network meets up regularly (three times a year) in person and online, to hear best practices from speakers, share experiences and support, and find opportunities for collaboration. We also invite our network members to share their work and opportunities with our wider networks. If you have exciting work, events, or announcements to share.
